## **COOKING MADE EASY**

Samsung has rolled out the Colour Series Microwave Ovens that don't just look chic but boast innovative features, too. Choose from a solo microwave (in black and pink) or a grill microwave (in white and

mint), both of which have a glass control panel and six intuitive buttons. For the health-conscious, the Grill Fry function fries food evenly with just a dab of oil, while those with a sweet tooth can whip up desserts using pre-set recipes.

The Power Defrost and Bread Defrost are time-savers for busy home cooks, and cleaning up is painless too, thanks to a non-stick ceramic enamel interior that is certified to have up to 99.9 per cent antibacterial properties.

📍 The Samsung Colour Series Microwave Oven retails at \$249 (solo microwave) and \$319 (grill microwave), available at the Samsung Online Store and major consumer electronics & IT stores.
